Product Catalog

We offer Lustre, Glossy and Metallic Papers

Kodak Professional Supra Endura papers offer consistent results and easy print matching all from a single inventory of photographic media delivering the full capability to handle all types of portrait and commercial images. Kodak Endura Metallic Paper has a glossy finish and metallic appearance, also great for portraits and commercial images.

Pro Prints have color, contrast, and density correction applied to your prints.

Canvas

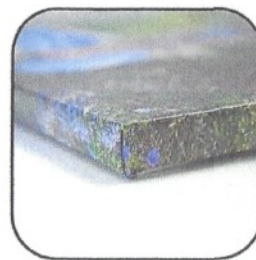

Our Canvas stock is made of highest-quality professional archival material.

The Gallery Wrap image is printed and stretched over gallery stretcher bars. This treatment allows the piece to be hung directly on the wall without a frame.

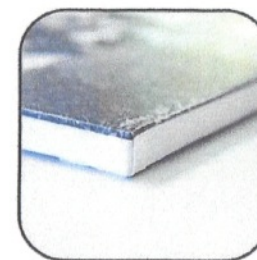

The Standard Wrap image is printed to the edge of the frame, leaving plain white canvas wrapped around the edge and can either be hung on the wall directly or dropped into a standard frame.

UV protective coating helps reduce the harmful effects of UV rays that can cause the canvas to fade over time.
